

Actividad 1- JSON

Nombre y apellido: Carolina Alejandra Pena Astigarraga

1- JSON con propiedad: primer nombre, apellido, edad y si tiene mascota.

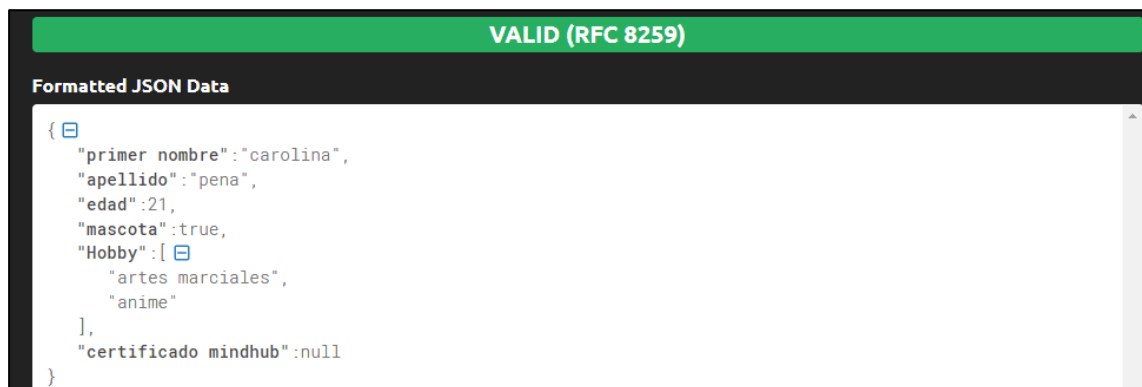

A screenshot of a web-based JSON validator. At the top, a green bar displays "VALID (RFC 8259)". Below this, the text "Formatted JSON Data" is shown. The main area contains a code editor with the following JSON object:

```
{  "primer nombre": "carolina",  "apellido": "pena",  "edad": 21,  "mascota": true}
```

At the bottom right of the editor, there are three icons: a minus sign, a plus sign, and a square icon.

2- Al JSON de la actividad 1, agregarle un arreglo y una propiedad nula.

A screenshot of a web-based JSON validator. At the top, a green bar displays "VALID (RFC 8259)". Below this, the text "Formatted JSON Data" is shown. The main area contains a code editor with the following JSON object:

```
{  "primer nombre": "carolina",  "apellido": "pena",  "edad": 21,  "mascota": true,  "Hobby": [    "artes marciales",    "anime"  ],  "certificado mindhub": null}
```
